

CSCI 544 Assignemnt 4

Mounika Mukkamalla

March 20, 2024

1

ipynb file and python file both are attached along with dev and test.out files.
We need to make sure train, dev and test files are under data folder. and data folder is in the same folder as the python file.

To run task1:

we need to execute: `python BLstm2.py`

To run task2:

we need to execute: `python BLstm1.py`

To run task3:

We need to execute: `python BLstm-CNN.py`

To evaluate:

we can use the same command as provided in the assignment doc:

`python eval.py -p predicted file -g gold-standard file`
